**STOP**  
SURVEILLANCE TECHNOLOGY  
OVERSIGHT PROJECT

**46% of NYC households living in poverty lack internet access.**

The City must close the digital divide without compromising privacy.

Internet access is **essential**, but without proper safeguards, public broadband could become an even more granular way to track New Yorkers.

Read our proposal on how to **safely and equitably** roll out NYC's Internet Master Plan in S.T.O.P.'s latest report.
